### ***Drawings***

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because drawings are handwritten. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: Claims 1-22 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims. As to claims 1-4, the prior art of record does not teach admitting the voice call if the sum of the channel power level for the voice calls upon admission and the current channel power level for data calls is less than a power maximum and if, upon admission, sufficient reserved power is available to admit at least one additional data call. As to claims 5-8, the prior art of record does not teach admitting the voice call if the sum of the reserved channel power level for the data calls upon admission and the current channel power level for voice calls is less than a power maximum and if, upon admission, a sufficient power is available to admit at least one additional voice call. As to claims 9-17 and 19-22, the

Art Unit: 2667

prior art of record does not teach the call admission monitor configured to admit additional voice or data communications based on a configurable dynamic operating point for a maximum channel power.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
